

CampusClub360

Phase 8: Data Management & Deployment:

1. Data Import Wizard

- Used to import initial data into Salesforce.
- **Imported two main datasets:**
 - **Sports Registration Data** → Pre-loaded student/team registrations into the Sports Registration table.

- **Store Items Data** → Loaded all the inventory into the Sports Items table.

The screenshot displays the 'Bulk Data Load Jobs' page in Salesforce. At the top, there's a 'SETUP' button and the page title 'Bulk Data Load Jobs'. Below this, a sub-header reads 'View the details of a bulk data load job.' and a link to 'Back to List: Bulk Data Load Jobs' is provided. The main section is titled 'Bulk Data Load Job Detail' and includes a 'Reload' button. It contains a table with job details for Job ID '750gK00000DYRWE', submitted by 'Rakesh Yarra', with Job Type 'Operation' and Bulk V1 'Insert'. The status is 'Closed' with 190 total records. Below this, a table shows the progress of the job, including 'Queued Batches' (0), 'In Progress Batches' (0), and 'Completed Batches' (1). The 'Time to Complete' is 00:01. The 'Object' is 'Sports Registration', 'External ID Field' is 'Progress', 'Content Type' is 'CSV', 'Concurrency Mode' is 'Parallel', and 'API Version' is '64.0'. At the bottom, a 'Batches' table lists individual batch details, including 'Batch ID', 'Start Time', 'End Time', 'Total Processing Time (ms)', 'API Active Processing Time (ms)', 'Apex Processing Time (ms)', and 'Records Processed'.

Job ID	Submitted By	Job Type	Bulk V1	Status	Closed
750gK00000DYRWE	Rakesh Yarra	Operation	Insert	Total Processing Time (ms)	190
Start Time	9/21/2025, 11:23 PM PST	Queued Batches	0	API Active Processing Time (ms)	133
End Time	9/21/2025, 11:23 PM PST	In Progress Batches	0	Apex Processing Time (ms)	0
Time to Complete (hh:mm:ss)	00:01	Completed Batches	1		
Object	Sports Registration	Failed Batches	0		
External ID Field	Progress	Progress	100%		
Content Type	CSV	Records Processed	178		
Concurrency Mode	Parallel	Records Failed	0		
API Version	64.0	Retries	0		

View Request	View Result	Batch ID	Start Time	End Time	Total Processing Time (ms)	API Active Processing Time (ms)	Apex Processing Time (ms)	Records Processed
View Request	View Result	751gK00000Aysqz	9/21/2025, 11:23 PM	9/21/2025, 11:23 PM	190	133	0	

- **Purpose:** Ensure the system is ready with baseline data for sports teams and store sales before demo/use.

2. Development Tools & Workflow:

- Lightning Framework: Used only for Lightning Web Components (LWC).
- VS Code: Used for developing and deploying LWC (attendanceScanner, sportsRegistrationForm, sportsItemScanner, sportsItemList, sportsClubPage).
- Developer Console: Used for creating and testing Apex Classes and Triggers (AttendanceController, SportsSaleTrigger, etc.).
- **GitHub** → For **version control and backup**.

3. Deployment:

- Connected VS Code to Salesforce Org using SFDX authentication.
- Downloaded metadata (Objects, Flows, Apex Classes, Triggers, LWCs) from the Org into VS Code.
- Integrated VS Code with GitHub, pushing all project files into a repository.
- Used this GitHub repo as a source of truth for project artifacts.
